Cross-platform
Capacitor, Android, Tauri, Rust

LANGUAGES

Spanish	Native
English	C1 · Tec certified
French	A1

SELECTED WORK

EDOOLY
Founder & Sole Developer · 2024-Present

Gamified mathematics learning platform for Spanish-speaking users. Built end to end across product, frontend, backend, PostgreSQL, infrastructure, monetization and Android deployment.

Node.js · PostgreSQL · Prisma · Capacitor · Firebase · AdMob
edooly.com

RUNODE
Founder & Developer · 2026-Present

Desktop control center for AI coding agents. Explores task orchestration, project context, usage-limit handling, scheduled work and local developer workflows.

React · TypeScript · Tauri · Rust · SQLite
github.com/vscodescaa/runode-web

YORU KR-7
Creative Developer · 2026

Cinematic JDM web experience with scroll-driven camera choreography, a real-time 3D car scene, wet-street reflections, rain, post-processing and an interactive configurator.

Three.js · WebGL · GSAP · Lenis · Vite
View interactive demo

HVACKEROS
Finance Director & Web Developer · 2026-Present

Digital presence for a Tecnológico de Monterrey student organization focused on HVAC and affiliated with ASHRAE; also responsible for financial planning and budgeting.

HTML · CSS · JavaScript · Leadership

EXPERIENCE

Finance Director — **2026-Present**
HVACKEROS · Tecnológico de Monterrey
Financial planning, budgeting, organizational operations and development of the group's digital presence.

Software Development Volunteer — **Sep-Nov 2026**
Política Abierta
Bug fixing and feature development related to legislation, initiatives and access to civic information.
